Art Unit: 1762

1. The amendment filed 5/1/03 has been considered and entered. Claims 1-25 remain in the application with claims 6-20 and 24-25 being directed toward a non-elected invention.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

3. Claims 1-5 and 21-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ferguson (5,208,686) or Ferguson (5,345,322).

Ferguson (5,208,686) or Ferguson (5,345,322) teach applying capsules with multiple colors as well as applying a first layer of one color followed by a second layer of a different color and if desired a third color. Each capsule with the different color can be responsive to a different voltage or frequency and would be in registration with a pair of electrodes. The first color being in registration with say the bottom electrode while the second color would be in registration with the top electrode. See figures 13-31 of Ferguson (5,208,686).

Ferguson (5,208,686) or Ferguson (5,345,322) fail to teach the preferred coating application, ink-jet, screen print, gravure coating, etc.

It is the Examiner position that one skilled in the art at the time the invention was made would have had a reasonable expectation of achieving similar results regardless of the application utilized to coat the capsules. If Applicant disagrees, Applicant is invited to supply a showing of unexpected results regarding these various techniques. Applicant is reminded that

Art Unit: 1762

the claims need to be commensurate in scope with this showing. The Examiner will reconsider his position in light of such a submission.

Response to Amendment

4. Applicant's arguments filed 5/1/03 have been fully considered but they are not persuasive.

Applicant argued that the prior art fails to teach electrodes on the same substrate and the process being for electrophoretic displays.

The Examiner disagrees. See rejection above.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
